Steri-Oss Part 3 contains the compatible components for the discontinued implants from Steri-Oss, including the Original Non-Hex Flat-Top, the 3.25 SD Hex-Loc and the Replace External Hex. These implants were originally developed by Steri-Oss Company. Steri-Oss was acquired by Nobel Biocare of Zurich, Switzerland in 1999.

Compatible components made by Attachments International for listed implants included in Part 3:

- Steri-Oss Original SD 3.25 & 3.8 / 4.0 internal non-hex flat-top
- Steri-Oss Hex-Loc SD 3.25 external hex
- Steri-Oss Replace 3.5, 4.3 & 5.0 external hex

See Branemark Part 1 for External Hex Steri-Oss Hex-Loc 3.8 & 4.5 compatible components. They are compatible with the Regular Platform (RP) Branemark.

See Select Part 2 for Internal Tri-Channel Connection compatible components for implant systems such as Steri-Oss Replace Select, NobelReplace and NobelSpeedy Replace.

Compatible components are available from Attachments International for the following discontinued implant systems:

<table>
